

1. What is Erongo RED?

In line with the abovementioned policy, the Erongo Regional Electricity Distributor Company (Pty) Ltd (Erongo RED) was established to undertake the supply and distribution of electricity in the Erongo Region of Namibia.

2. Mission and Vision

Erongo RED's **vision** is to become:
Erongo RED: The leading Electricity Provider.

Erongo RED's **mission** is to:
Distribute and supply electricity to the existing and potential customers of the Erongo RED licensed area by means of an efficiently run RED.

Erongo RED's **values** are:

- * Integrity
- * Commitment
- * Teamwork
- * Respect
- * Professional behaviour
- * Take no bribes, pay no bribes

3. Payment Method

You can pay your electricity accounts in many ways:
a) At any Erongo RED pay-point in cash or cheque only
b) Direct banking
c) Internet banking
d) Debit order

The following bank accounts can be used:

ALL INTERNET BANKING AND FNB DIRECT DEPOSITS:

Bank **First National Bank**
Branch Walvis Bay
Account name Erongo RED (Pty) Ltd
Branch number 28-21-72
Account number 62103311156

OR IN THE ABSENCE OF A LOCAL FNB BRANCH:

Bank **Bank Windhoek**
Branch Walvis Bay
Account name Erongo RED (Pty) Ltd
Branch number 48-18-72
Account number 8000630203

OR FOR EX-NAMPOWER CUSTOMERS:

Bank **Bank Windhoek**
Branch Walvis Bay
Account name Erongo RED (Pty) Ltd
Branch number 48-18-72
Account number 8000615611

Please note

When making direct payments or internet payments it is very important to ensure that:

- Your account number (in full) appears as the transaction reference.
- When making direct deposits, internet payments or multiple account payments with one deposit, the details must be faxed to the correct fax number (appearing on your account).

All debit orders are processed not later than the 10th of each month.

4. Suspension of Electricity Supply

Pursuant to the Erongo RED credit control policy, non-payment of account by the due dates will result in suspension of electricity supply. Avoid inconvenience by paying in time. Illegal re-connections are of a criminal nature and guilty members may be prosecuted.

5. Registration of Electrical Contractors

All electrical installations connected or intended to be connected to the Erongo RED Network must be done by duly qualified and registered Electrical Contractors. All Electrical Contractors wishing or intending to do Electrical Installation work in the Erongo Region must register with Erongo RED. Such registration is only valid for one year. For further information please contact Mr Reginald Brandt at the Walvis Bay Technical office, tel. 064 – 217 600.

6. 24-hour Pre-payment Vending

Pre-payment electricity for all towns can be purchased at any Erongo RED pay point. Businesses are encouraged to contact Erongo RED to implement third party vending. Current Points are available at:

- Walvis Bay: Automatic Vending Machines at Civic Centre, Narraville Municipality, Kuisebmond Municipality, BP Service Station in Kuisebmond, Parcel Force Courier Shop and Woermann Brock Supermarkets
- Swakopmund: Engen Truckport, Parcel Force and Woermann Brock Supermarkets
- Henties Bay: Omdel Butchery and Henties Bay Spar
- Usakos: Engen Service Station
- Omaruru: Lucky 7 Chaka Store
- Spitzkoppe Settlement 3rd Party vending is up and running
- Karibib: Total Service Station

7. New Tariffs 2010/2011

Kindly be informed that the Electricity Control Board and Board of Directors of Erongo RED have approved the tariff increases for Erongo RED with effect from the July 2010 bill.

Kindly contact your nearest Erongo RED pay-point for the tariff schedule in your specific town.

Public meetings are scheduled to be held in every town during July and August 2010. Kindly contact our pay point office for further details.

8. Energy Savers

Erongo RED hereby wishes to inform its valued customers that the following methods can be used to reduce the monthly electricity bill:

- Customers can apply to reduce their current circuit breaker size if it has been verified that the lower size is sufficient for the customer's needs.
- Customers can apply for pre-paid electricity.
- Customers can apply for the 20 Amp pre-paid tariff.
- Customers can replace the normal electric bulb/globe with the energy saving bulb or fluorescent tube light.
- Customers can reduce electricity by making use of the consumption of household implements brochure available at the Erongo RED pay points.
- The fastest way to reduce the consumption of an existing geyser is to reduce the temperature to around 55 °C. Electric geysers can consume up to 50% of your household electricity consumption.
- Install solar geyser with electric element for back-up, but please note that existing ripple relays may not be disconnected or bypassed.
- When building a new house include a solar geyser from the start and pay off as part of housing loan.
- Use heaters and air conditioners money- and energy wise.
- Customers to pay their accounts on time.

9. Planned Project Highlights for 2010/2011

- Bulk supply upgrades for Walvis Bay, Swakopmund and Henties Bay due to the high growth in electricity consumption.
- Expansion of 3rd party pre-payment vending stations for customers.
- Establishment of a Customer Relationship Management System that will help to inform customers and ensure prompt follow-up on queries throughout the region.
- Expansion of load control systems to reduce peak demand of power
- New store and workshop for Area 3 in Omaruru
- New pay point and workshop in Uis.
- Upgrades of electrical networks within all towns as an ongoing project to adjust to increased power demands.
- New Project of installing recloser and SCADA to improve on reaction time.
- Customer Call Centre

10. Vandalism & Theft

It happens from time to time that Erongo RED property/equipment gets damaged or vandalized. This increases Erongo RED costs and thus also indirectly the electricity tariffs. Lately, on two occasions, members of the general public were rewarded for reporting such incidents.

We therefore urge all members of the general public to report any acts of vandalism to our office. Information which leads to successful recovery and/or prosecution will be rewarded.

11. Erection of structure on Erongo RED Servitudes

It is important to notice when intended buildings are constructed over the Services Servitude of 3m at the back and the side boundaries that Erongo RED also needs to give approval. Any costs incurred due to not adhering will be carried by the developer/owner.
