The reason for the outage is for NamPower to do urgent and critical substation building repairs at Tamarisk substation. Erongo RED acknowledges and regrets the fact that the Rossmund community has been affected by many power interruptions recently and would like to assure the customers that these outages are required to address the safety aspect of the substation as well as reliability of power supply to Rossmund and Swakopmund respectively. The three(3) hours outage planned for the 3rd November 2022 is the last of the series of planned outages to complete the repair works at Tamarisk substation.

Erongo RED regrets any inconvenience that may result from these outages.
